## A. THE ORIGINAL Silver Cat - Brand New Look!

ITEM	LGTH.	TYPE	\$ EA	BUY 3
SCAT70S	7' /2PC	SPIN	28.95	26.95
SCAT80S	8' /2PC	SPIN	29.95	27.95
SCAT70C	7' /2PC	CAST	29.95	27.95
SCAT80C	8' /2PC	CAST	32.95	30.95

Type Of Guides: Ceramic Insert

The Silver Cat series is made of 100% fiberglass, and offers many features only found in catfish rods at a much higher price point. The nylon cord grip will offer great, no-slip handling even with wet, slimy hands, and is durable enough for use in a rod holder. The super-slick ceramic guide inserts are framed by equally high-quality

aluminum oxide alloy and will provide smooth line flow for heavy lines. The graphite reel seat will accommodate any size reel, and will keep it tight to the rod for maximum sensitivity. Finally, the glow-in-the-dark tip will help you see the lightest of bites during night-time fishing. The Silver Cat is a medium action rod, with a sensitive tip to maximize your catfishing efforts. As with all of our products, we believe sensitivity is the key to catching more fish, regardless of the species.

## B. Silver Cat MAGNUM

ITEM	LGTH.	TYPE	\$ EA	BUY 3
MAG80C	8' /2PC	CAST	59.95	54.95
MAG70S	7' /2PC	SPIN	59.95	54.95
MAG10C	10' /2PC	CAST	69.95	64.95
MAG10S	10' /2PC	SPIN	69.95	64.95

Type Of Guides: Ceramic Insert

The Magnums are built on a unique blank made of a 90% carbon, 10% fiberglass blend for sensitivity and extra backbone. They feature a wrapped nylon cord grip for sure-handling; super-slick ceramic guides, and a 'cat-fishin'' tough graphite reel seat. These rods start with sensitivity

to the smallest nibble, and finish with the backbone you need to haul in the monsters. The Magnums feature an 8-foot 2-piece casting rod, a 7-foot 2-piece spinning rod, and the newest 10-foot models come in both spinning and casting configurations.

## C. Silver Cat Magnum PRO-STAFF BUMPING ROD

BMPRO70C	7' /1PC	CAST	62.95	57.95
BMPRO75C	7.5' /1 PC	CAST	68.95	62.95

Our monster catfish catching Bumping Rod just got better! This version provides a stiffer blank than the original and a stainless steel tip eyelet designed to handle the abuse that swifter current

and 80+ pound catfish put on it. Bumping is the fastest growing technique in catfishing and is a technique used a majority of the time by Pro fishermen on rivers like the mighty Mississippi.

## D. REDESIGNED SILVER MAGNUM 75

Our best-selling Magnum rod just got better!

ITEM	LGTH.	TYPE	\$ EA	BUY 3
MAG75Ch	7.5' /1PC	CAST	65.95	59.95

Guides: Stainless Steel

With the help of our Pro Staff, we have stepped up our Magnum 7.5 ft 1-piece rod. We have added a cork handle, aluminum reel seat, and solid steel eyes the entire length of the rod. No more

inserts popping out! This has become the favorite anchoring rod for our Pro Staff and it will be yours as well!

## E. NEW! SILVERCAT ELITE

ITEM	LGTH.	TYPE	\$ EA	BUY 3
SCCL75C	7.5' /1PC	CAST	65.95	59.95
SCCL75S	7.5' /1 PC	SPIN	65.95	59.95

The all new Silver Cat Elite is made of E-glass composite material, which provides extreme strength and durability while catching huge cats. Designed for suspended drifting and anchoring, this rod

has a non-parabolic action that provides stiff backbone, but with a faster tip to see "hits" more clearly. The action of this rod is unique and will provide excellent visibility. Other prominent features of this rod are a double-nut locking reel seat made of aircraft grade aluminum, Hi-Vis tip - especially useful for night fishing, and a high quality X-Grip provides extra grip an improves rod aesthetics.

**A. IM7 Graphite All-Purpose Crappie Wizard**

ITEM	LGTH.	TYPE	\$ EAC.	BUY 3
CW75	7.5/2PC	SPIN	46.95	42.95

Guides: Dyna-Flo

Designed by Richard Williams, a renowned guide on Kentucky Lake, these rods are constructed with high modulus IM7

graphite to provide a fantastic blend of strength and sensitivity for those who prefer a slightly stiffer action. The handle is made of genuine Portuguese cork for maximum sensitivity and a lightweight feel. Aluminum oxide spinning guides allow for great casting if that's your preference. This is a great all-purpose rod that will catch almost any species you desire. Spare Tip \$22.95

Type Of Guides: *Dyna-Flo*

14' and 16' trolling models available

The very-first graphite jig pole just got a great facelift and greater features. We improved and enlarged the guides - single-foot Dyna-Flo guides are lighter and more durable because of alloy construction and inserts. No more ceramic eyes popping out! The increased diameter of these guides will provide more versatility when pitching or flipping. The all-new reel seat keeps the reel tighter to the pole, allowing for more sensitivity. All of these new features (along with a new, flat-black finish) come to you at no extra charge.

This rod has no guides or eyes, and features a line thru the blank design. This rod will allow more aggressive fishing in heavy brush since there are no guides to get hung or tangled in brush. Provided with a wire threader for each customer. Line entry port mounted forward on blank allows you to easily pull line back when needed, and more easily detect slight and light bites. 90% graphite with EVA handle. Spare Tip \$20.95

If ultra-light fishing is your preference, we have developed a rod you will love! The new Slabtail series is an extremely light, 1-piece UL rod with the fastest tip in the land. The buggy whip action of this rod, along

with the high quality stainless steel guides, will allow better castability with even the smallest of line and lures. Designed by Tom Mundy, owner of Fish Stalker Lures, these rods specialize in sensing the lightest of bites when the crappie and bluegill are lethargic. They are available in a 4 ft. 10 inch spinning model and a 5 ft. 10 inch bait-casting model. The bait-casting model features guides that wrap around the pole, allowing you to cast further, and with more accuracy with light tackle. Great price point. 100% fiberglass, with Genuine Portuguese cork handle.

### Great for shooting docks!

The SharpShooter series is a great ultra-light spinning rod, but is designed specifically for shooting docks. 100% graphite construction. Solid backbone, but with just the right amount of flexibility to launch the jig under the docks.

The Tennessee Handle (Portuguese cork with sliding rings) allows you to place the reel on the handle where you feel most comfortable (and most accurate) when shooting docks, and provides a snug fit. (Instructions for dock shooting included on the rod card). Single footed, strengthened alloy guides are accurately placed for sharp shooting. Teamed with our new West Point Spinning Reel (#BM050) or West Point Trigger Reel (DL1), you have a winning combination.

Guides: *Dyna-Flo*

A continued quest for the perfect dock shooting rod led us to the SharpShooter Deluxe. This rod has been field tested by our pro staff for the last year. The one

piece blank is made of extra stiff 98% graphite that provides longer and more accurate "shooting" of jigs as small as 1/64. The micro tip eyelet reduces line wiggle. The handle is made of Portuguese cork and has a fixed reel seat and touch system to provide superior feel for the lightest of bites. Dyna Flo guides for smooth line flow. Hook keeper. Though designed for dock shooting, this is an excellent all around spinning rod that matches well with our PRO100 reel.

### The Tournament Fisherman's Choice

This rod has a great blend of strength and tip action for even the most aggressive trollers. It was tested using two jigs spaced at various depths, a 5-oz sinker, and trolling speeds up to 2 mph. Stiff enough to withstand this aggressive style, yet sensitive enough to detect the slightest of nibbles. ### Every nibble is easily visible!

The tip action in these rods will ensure every nibble is easily visible, as it's the same action found on the number one crappie rod in the industry. Perfect for slow, vertical trolling before and during the spawn, these rods have

enough flex to sense the lightest bites. The lighter action will also keep your bait in the strike zone even when the winds have your boat rocking. The flex in these rods won't scare away a nibbling crappie, as the fish will feel little resistance when they pull away – until your hook is set and it's too late! Spare Tip \$18.95

Most folks know Ray Scott as the founder of B.A.S.S., but he is also a renowned historian on bass fishing. The Jiggerpole method for catching bass dates back to the 14th century, making it one of the oldest, and most

productive, fishing techniques known.

A long pole, a short amount of line, and literally moving the lure around the lily pads in shallow water. Water splashing on your face. What could be better?

A solid, yet flexible backbone is required on a 14 or 16 ft pole. And, to better protect your tip eyelet for this technique, we offer a unique tie-down/fold down eyelet which allows more tip stability and life, yet still allows the telescopic pole to be broken down. ### The best rod available anywhere for Float and Fly fishing!

We consulted with the master of this technique, Tennessee guide Jim Duckworth, to develop the best rod available anywhere for Float and Fly fishing. (By the way, it also makes an excellent crappie rod!) Made of IM6 graphite, this is a tough, durable rod with excellent "feel", and will provide the exact parabolic action required for bait presentation.

The weighted handle system allows you to decide the best balance of tip and handle weight for custom castability. Want less weight on the handle? The weighted handle system is furnished with 2.5 ounces of weight to decide the best balance... Simply remove the brass plates on the handle by removing the cap and weights. Then, simply replace the cap. It's that simple! The shortened handle is made of genuine Portuguese cork and offers you more rod blank to get more casting distance, but remains tournament legal at 8 ft. We guarantee this will be the most versatile rod in your collection. Spare Tip \$19.95

### Slabmaster Crappie Saver

**Oversized Design:** Current crappie checkers on the market have one major flaw: they simply aren't big enough! Our oversized checker allows measurement up to 16 inches.

**Air Bladder Deflation Guide:** Keeping your fish alive until tournament weigh in is a challenge. Your best bet is to deflate the air bladder. But, where is the air bladder? Easy: Simply place your crappie into the Slabmaster Crappie Saver, and measure the length. Keeping the fish properly aligned in the checker, take your length measurement and correspond it to the ADG. Insert a needle (at a 45 degree angle), and press. The air bladder is deflated, and the fish wins you that coveted championship.

**Estimated Weight:** Find the approximate weight of your fish.

**Estimated Age:** Estimate the age of your fish based on years of exhaustive research. You'll be surprised at how long it takes a crappie to reach 3 pounds!

Made of extremely durable ABS plastic, in easy-to-see orange.

## Slab Saber Crappie Trolling Series

*The Slab Saber rods were designed for slow, vertical trolling. Their keen hi-vis yellow tips let you see more bites, while the crappie feels less resistance. The long full butted EVA handle lets you adjust the rod easily. Two styles let you choose the right rod for the reel you prefer (spin or cast).*

# GRIZCO Rod Tips

*Introducing our new line of tip sections*

**GRIZCO** Tips range from **\$17.<sup>95</sup> - \$21.<sup>95</sup>**

Our tips are made from IM-7 Hi-Mod Graphite. All have ceramic guides and tips. Most tips are dark gray in color and may not match your rod. Shipping tips can be expensive. We will not ship a tip unless we make sure it will fit. We will need the rod model number and length.

*We, at Grizzly, try to carry manufacturer's tips for all the rods we sell, but some are not available.*

*Grizzly Jig goes one step beyond the competition.*

*We are now selling replacement butt sections for your favorite rod.*

*Save \$15-\$30 off the price of a new pole.*

**HOW TO ORDER:**

- Step 1:** Go through our catalog and find your rod.
- Step 2:** Check to see if we show an exact replacement tip for that rod.
- Step 3:** Subtract the tip price from the rod and that will be your cost.
- Step 4:** If no replacement tip is shown, call us for a quote.

# spinning, casting & pole reels

## A. West Point Trigger Reel

This is a fantastic little reel that can accomplish big things! Weighing only 5.5 oz, this trigger spin reel is pre-spooled with 43 yards of 8 Lb test line. And, for an ultralight reel, it packs a hefty 4.7:1 gear ratio to bring 'em in. Stainless steel reel cap adds durability. Though designed for fishermen of all skill levels, this is a great reel for beginner fishermen, and has withstood the test of a 7 year old who is rough on equipment... very rough! Left hand retrieve. Line capacity: • 6lb/50 yards • 8lb/40 yards (furnished) • 10lb/25 yards

ITEM: DL1 **\$27.95**

## B. West Point Spinning Reel

The West Point Spinning reel is a 3 ball bearing reel that's designed for light freshwater applications. Weighing only 5.2 ounces, it works great with ultra-light rods and jig poles. • Quick-Change right or left hand retrieve • 4.7:1 gear ratio • Cast aluminum spool with 8 lb. test line • Spare graphite spool • Smooth front drag system • 4 lbs./150 yds., 6 lbs/100 yds., 8lbs./70 yds.

ITEM: BM050 **\$25.95**

## C. ProStaff Spinning Reel

It doesn't say PRO-STAFF for nothing... Smooth action, tough performance, and lots of fun, this little workhorse has a silky-smooth drag for longlining, spider rigging, or any trolling technique. Featuring a stainless steel cap and options for both right- and left-hand retrieves. 5BB (4+1), 5.1:1 gear ratio, with line capacities of: 4lb/220yds, 6lb/150 yds, or 8lb/100 yds.

ITEM: PRO100 **\$39.99**

## D. Buck's Mini-Reel

Weighs only 3 oz.. Measures only 1-1/4" x 3-1/2"  
• Powerful 3.6:1 gear ratio • Anti-reverse lever • Holds 50 Yards of Line. • Audible bait clicker • Tension Control • Quick change right or left hand retrieve.

ITEM: BMR1 **\$19.95**

## E. Quick-Change Crappie Reel

This is really neat little reel that offers the ability to quickly change out line for customers who use pony spools. Great price point, and something unique that is not offered by any competitor. Patented.

ITEM: QC1 **\$6.59**

## F. Quick Change Reel Vertical Mount!

As with our QC1, this is a neat little reel that offers the ability to quickly change out line for customers who use pony spools. This model, though, is vertically mounted like our FR2. Simply cut two notches in the spool as per the instructions, place it in the reel cradle, and you're ready to go! This reel will allow you flexibility in your line choice, and provide you more feel with the line resting on top of your fingers if you choose. Mount this reel for left or right hand retrieve. Great price point!

ITEM: QC2 **\$6.99**

## G. Buck's Best U.L. Crappie Reel Small and Combative!

Lighten your crappie rig for all day vertical jigging with these great little reels. Made of crush resistant ABS material, these reels have 2BB to ensure smooth operation and will allow you to set the drag for optimal rod performance. Weighs just 1.6 oz.!

Gear ratio: 1:1 • Spool diameter: .75 in.  
ITEM: BAN01 **\$13.99**

## H. Universal Pole Reel

*Universal design fits all poles.*  
Flat design lays close to pole. Nylon construction  
• Fingertip drag • Tape-down reel foot • 1:1 ratio

ITEM: NCP33 **\$3.99**

## I. Buck's Best Ultra Lite Crappie Reel 2

*Our best-selling reel: now 30% bigger!*

This light reel is great for all-day jigging. Made of crush resistant ABS material, this reel has 2BB to ensure smooth operation and will allow you to set the drag for optimal rod performance!

LINE CAPACITY:  
6lb test: 75 yards / 8lb test: 35 yards  
10lb test: 30 yards

ITEM: BAN02 **\$13.99**

## J. West Point Crappie Reel

*This Classic Is Now A Better Deal Than Ever!*

Our West Point Crappie Reel – a staple for all crappie fishermen – has been re-tooled for 2013 to provide smoother and more accurate gear action. The audible bait alarm will let you know of the lightest of strikes, and the anti-reverse will ensure no reel movement.

How Does Cajun Red Line Disappear?

4#	
6#	
8#	
10#	
12#	
RED 14#	
20#	

Water filters out certain colors more quickly than others. The color red is the first color to be completely filtered. This means that once Cajun Red™ line goes under water, it starts to become "invisible" to fish in as little as three feet of water! All the fish see is the lure.

# One-Pole Jigging...Old Tactic Still Fun & Productive

By: Tim Huffman

“One-pole jigging has been around since the existence of fishing,” says Bart Gillon, owner of Rod Safe and pro staff for Grizzly Jig Company. “Spider rigging came on the scene and is a good way to catch more fish, but many fishermen still want to feel the bite and “the thump” that one-poling provides.”

Gillon says a fisherman’s favorite method is often determined by the water he or she fishes. It might be a jigging lake, spider rigging or fast trolling lake. A weekend fisherman can use the method that’s most fun and what works at his home water. Competitive fishermen have used spider rigging because it simply produces more fish on most lakes compared to other techniques.

“My rule of thumb when jigging is to use the lightest line and jig for the condition. In water less than 10 feet, I’ll use a 1/16-ounce jig with a big hook. If going deeper or if it’s windy, I’ll go to a bigger weight.

“Another rule of thumb is to put the jig in the right spot. No matter what the weather, lake color, sun or clouds or bait, putting it in front of the fish is the most important thing. If fish are sluggish af-

ter a front, I will keep it still for a long time. Aggressive fish usually hit on the fall or after a very short time when stopped.

New for 2020

The Grizzly Pro Balance is a new pole for 2020. It’s a 10-foot, IM-7 Graphite with an adjustable butt weight system. Grizzly owner Louie Mansfield has always weighted his long poles, but the new Pro allows a fisherman to add or remove as needed for a perfect balance.

“The one-pole market is getting ready to explode due to new electronics,” says Gillon. “We are seeing fishermen catching more fish with one pole than they can with four. I believe those fish have always been there to catch with one pole, but the new electronics makes it easier.

“I use a Grizzly Elite for my one-poling and it is weighted nicely, and the Pro will be even better. Balance is so important. You are going to get tired if you’re jigging all day. The weighted butt will keep the weight of the pole from pulling down on your wrist and wearing you out. Along with less fatigue, the good balance makes the pole easier to handle and increases sensitivity to feel more bites.”

Two other new products are Grizzly’s GS50 and GS100 reels. The 50 is an ultralight, six ball bearing reel with all the bells and whistles. It’s the best reel yet from Grizzly. The newly redesigned 100, two ball bearing reel, is a good all-around choice at an economical price.

### Tire and Wheel Assemblies

Your boat and camper tires literally take a pounding every time you use them. Those potholes that your vehicle tires miss as you go around are usually hit by your trailer tires. Further, smaller tires don't dissipate heat as well as larger ones, so trailer and camper tires tend to heat up more, especially at high speeds. At the other extreme, they're often stored for long periods of time, which is also hard on tires. A spare tire and wheel are your best insurance that the good times will continue to roll... and roll. Choose from standard, custom spoke.

**Dining Room**

Dottie with a basket of her homemade rolls. (These rolls alone will keep you coming back.)

From the ruins of a devastating fire on Sept. 11, 1998, JD and Dottie Dowing began plans for the restaurant visitors see today.

An interesting menu printed as a newspaper you can read about Reelfoot history and upcoming special events such as the Arts and Crafts Festival in the fall, while you wait to dine on anything from appetizers of fried green tomatoes to entrees of steak or shrimp. An extensive menu to include the old-time tradition of meals served family-style. Platters with fresh piping hot fish, country ham, tempra breaded chicken, tenderloin and quail. Joined with red-eye gravy, twice-baked potatoes, country-style butter apples and melt-in-you-mouth onion rings. Accompanying your meal are hush puppies and their homemade rolls. Reelfoot traditional dining at its finest.

From breakfast, lunch or dinner dine on southern cooking at its best, a tradition more than a half century old.

## Mid-South Legend: Louie Mansfield

By: Joe Sills

*Mid-South Hunting & Fishing News*

As we present these Mid-South Legends, we occasionally come across someone we have known long before they attained legendary status. Such is the case with January's Legend, Louie Mansfield, whose Grizzly Jig retail store in Caruthersville, Missouri has been acclaimed by many as "The Nation's Biggest Crappie Store".

And if it's not now, it certainly will be soon, when the new Grizzly Jig Superstore opens later this year. In development now, the gigantic 144,000 square-foot showroom, seminar venue, and warehouse will be the crappie fisherman's Heaven on Earth.

I met Louie and his sons Wade and Lance around 30 years ago while traveling the area. At the time, I was involved in fundraising for school groups. His small downtown store was brimming with fishing products, trolling motors and boat accessories such as seats, pedestals, fish finders and lures. After a brief introduction, Louie's easy-going manner was a pleasant disguise for a professional fisherman, lure maker and intense businessman. We called it, at the time, the fisherman's paradise.

Soon after, I became associated with the Mid-South Hunting and Fishing News and my relationship with the Mansfield family progressed from a business acquaintance to a valued friendship.

Louie's story rings familiar to those involved in fishing. His began as a youngster, trailing along after his dad, with a fishing pole and a can of worms. After high school, he began a career in the local barge-building industry, all the while serving his country in the Army National Guard and, of course, fishing. In 1993, Wade attended a class on fly-tying which led him into tying crappie jigs. Then he taught his dad.

His quality products were quickly being rec-

ognized over commercial offerings, and the demand became so overwhelming he contracted them to be made by a local public service organization. In 1991, he opened a small store near the present location and went full-time. The one stipulation that his wife Lancy placed on him was that the venture would not dig into the family budget.

In 2003 he began his annual January Crappie Show, which has drawn thousands of crappie anglers from all over the country.

Louie's successful tournament experience, knowledge of the species' habits and friendship with the world's top crappie anglers have led him to become recognized as THE Go-To-Crappie Expert in terms of tackle and techniques. His shipping department sends all types of related products over the entire country and overseas. His annual catalog is eagerly awaited by those that fish for many species.

Looking for a way to extend your Crappie season? Trolling for Crappie has become a year round method for putting fish in the boat, and is very effective in the Summer and Fall. Use these charts to adjust line length and bait depth as needed for your conditions. Trolling speeds range from 1.2 MPH up to 2.2 MPH.

Arkie Field Tester, David Shands a.k.a. "G" of Crappie.com, is shown with some nice Summer time Crappie, caught while trolling Arkie Crankbaits!

First, we designed the right shape of bait to match natural forage in two different sizes. Next, we created a diving bill that generates one of the most enticing actions in the water while running true right out of the package! Then we implemented a dual rattle system that combines two sounds into one for a distinct vibration and sound, a sound only found in an Arkie Crankbait. We finished by adding super sharp red hooks to over 60 colors for any array of water, light, & forage conditions.

## VIE Shiner

From **Mister Twister**

Designed and tested by crappie guides and tournament anglers in 3 states. The vertical twin paddle tails displace more water, create more vibration, and impart an extreme swimming action. Small (1 3/4") shiner profile with an enhanced scale pattern. Every VIE Shiner is laminated, tri-colored or multi-colored for added visibility.

The Mister Twister® Micro Crawfish is a great Micro Mania lure that can fool even the most cautious slab crappie, big bream or trout. It's the perfect duplication of a baby crawfish. Designed to mimic Mother Nature, the Mister Twister® Micro Crawfish comes in the natural colors fish love. Fish it with a 1/16 oz. or 1/32 oz. jighead or rigged on a single hook for a natural presentation.

Mister Twister® downsized its Sassy Shad®, one of the most successful lures of all time, to produce the Micro Shad. Only 1-1/8" long, the Micro Shad is designed specifically for trout, crappie and bream. Rig it on a 1/64 oz. jighead. Proven design and a great color selection make the Mister Twister® Micro Shad perfect for both the trout and panfisherman.

## Perfect for Trout or Panfish

The Mister Twister® Nymph is another great trout, crappie and bream lure that will truly "match the hatch." The Nymph is the perfect duplication of a mayfly nymph designed to mimic Mother Nature. At 1/4" long, not only are the colors perfect, so is the size. Fish this little creature with a 1/16 oz. or 1/32 oz. jighead or rigged on a single hook to provide a more natural presentation.

**ACCESSORIES** Dress for success by adding scent, sound and flash to your crappie jigs with these innovative accessories. And dare to send your jig into spots where traditional techniques can't reach with Garland's Dock Shoot'R Pull Tabs.

### CRAPPIE DOCK SHOOT'R PULL TABS

These waterproof and tear-proof pull tabs simply slip over the point of a rigged jighead to provide an easier, safer and more reliable way to hold and release a bait for dock shooting than by the hook. Holographic version provides fish attracting flash. Natural Fin adds to the bait's natural look.

## Saltwater & Freshwater

# PIRANHA

**"Bad to the Bone"**

Saltwater and trophy freshwater fishermen have a fillet knife that can handle any big fish in the Piranha from Mister Twister®, the pioneer in electric fish cleaning technology. Every bit as rugged as the classic Mister Twister® Electric Fisherman®, the Piranha, features 25% more torque and 15% more speed than most other electric knives, so it will handle the tough scales and skin of any trophy fish. The real key to its cutting power is in its 9" heavy duty stainless steel blade. More power, more torque, and more speed make the Piranha, "Bad to the Bone!" The Mister Twister® Piranha...

*Superior mechanics means superior results.*

**More Power**

**More Torque**

**More Speed**

Increased blade length means less time cleaning fish and more time on the water. Perfect for all trophy fish!

Durable, expandable power cord

### Large Ladle

Item # 1886  
\$29.30

With the capability of holding 8.5 lbs of lead, this ladle is designed to be utilized for our large cavity molds. 5" diameter. Steel construction. Right and left pouring lips. 18" handle.

### Lyman Casting Ladle

Item # 2867790  
\$26.95

Features a wooden handle on a steel shank attached to a cast iron pour spout for easy and accurate pouring. Lead capacity is 4-1/2 oz.

### Cast Iron Ladle

Item # 1905      Item #1911  
\$16.95          \$17.95

The 1905 ladle has a 3 " diameter cup to hold up to 1-1/2 lbs. of lead and is designed to pour larger cavity molds. The 1911 has a 2-1/2" diameter cup to hold up to 1 1/4 lbs. of lead. The 1911 has a shorter handle design for better agility and ease of pouring. Both models feature left and right pouring lips and are intended for use with the 1904 cast iron pot.

### Hot Pot - 2

Item # 1892  
\$48.95

### Hot Pot - 2 Replacement Coils

Item # coil-2  
\$19.95

This is an improved version of the traditional "electric ladle." The heating element is now mounted externally to greatly extend element life. The HOT POT - 2 both melts and pours lead. Features: 3" X 13/4", 4 lb. lead capacity cast iron pot, heat resistant plastic hand stand, and three foot cord. 120 Volts AC, 500 Watts, by Palmer Mfg., Inc.

### Lee Lead Ladle

Item # 90026      \$7.29

Small sized ladle for use with Lee Precision Melter. Wooden handle, both right and left pouring lips are featured. Holds approx. 2 oz. of lead.

### Lee Production Pot IV

Item # 1901  
(110 Volt AC)-  
\$79.95

An efficient bottom pouring furnace that holds approximately 10 lbs. of lead. Features 4 inches of clearance under the spout. It is very good at making jigs weighing less than 1/2 oz. and can be used to mold sinkers up to one oz. in size. 500 watts, 110 V, adjustable heat control, and guaranteed by the manufacturer, LEE PRECISION, for two years.

### Lee Ingot Mold

Item # 90029      \$16.99

This four cavity aluminum ingot mold makes two each 1/2-pound and one-pound ingots. Includes a wooden handle.

### Lee Pro 4-20, 20 Lb. Electric Bottom Pour Lead Melter

Item # 1894  
(110 Volt AC)  
\$89.95

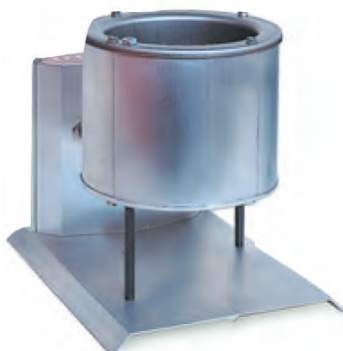

An affordable large capacity melter that holds 20 lbs. of lead in a 4X4 carbon steel pot. Features 4" of clearance beneath the spout, a new micro adjustable flow control valve, and an adjustable mold guide. It uses the patented Lee high-efficiency design with a dependable remote sensing thermostat. The flow valve can be adjusted to pour sinkers of up to 2 and 3 ounces quickly and without wrinkles.

### Lee Magnum Melter, 20 LB

Item # 1890  
\$72.95

Ladle pouring can be faster and better than bottom pouring for sinker molds, as well as some jig lure molds. At last there is an economical high capacity dip out melter available - the 20 lb. capacity LEE MAGNUM MELTER.

**A. Round Head Jig \$36.95**

The most popular all-around head style used in all waters of the United States, the Round Head Jig has probably taken more quantity and variety of fish than any other lure. In addition to being a good casting jig and a fairly rapid sinker, round head Jigs are among the easiest to tie.

**B. Round Head Jig- Staggered Barb Collar \$36.95**

A popular lure for pan fisherman. This double-barb collar style is designed to tightly secure the small 1.5" and 2" hollow plastic tube skirts. The upper barb is short, wide and blunt to hold the small hollow skirts tightly to the head or to add gripping power to solid soft plastic tails.

**C. Tube Skirt Jig \$36.95**

Just slip these jig heads inside hollow plastic tube skirts and go fishing. No painting or finishing necessary. Tube skirt jigs are designed for a friction fit inside the designated skirt sizes.

**D. Tapered Tube Skirt Jig \$36.95**

This style jig head is designed for speed loading into hollow plastic tubular jig skirts. Speed loading permits skirt collar changes without untying the jig from the line. These lures are easy to make and require no painting or finishing work.

**E. Crappie Jig \$36.95**

The horizontal, semi-flat shape helps the crappie jig fall slower and flutter more than most other jigs, so it's also successful for other panfish.

**F. Round Head Jig - Tapered Reverse Barb Collar \$36.95**

Tapered Reverse Barb Collar - Barbs are wider and not as sharp as the traditional "spike" barbs. Same holding power in SOLID soft plastic bodies, but much less likely to tear.

**G. Round Head Jig - Tapered Barb Collar \$36.95**

Tapered Barb Collar - Barbs are wider and not as sharp as the traditional "spike" barbs. Same holding power in SOLID soft plastic bodies, but much less likely to tear.

**H. Strap Decoy Anchor- Ingot Mold \$19.95**

This one-piece, three-cavity mold makes either strap type duck decoy anchors or lead ingots. There are two different levels of fill in each cavity. A melter and a ladle with capacity to hold a minimum six ounces of lead are required. This mold is not intended to be used with bottom pour furnaces.

**I. & J. Decoy Anchor Weights \$36.95**

These anchor weights have been an old standard of duck hunters everywhere for years. The mushroom shape is best in soft bottom areas. The pyramid shape is favored in hard bottom locations where it has less tendency to roll with a current.

**K. Wrap-Around Decoy Anchor \$36.95**

This is the answer to the problem of moving decoys between different depths of water. Line is wrapped around the body of the anchor. It can be easily set for any depth by tightly wrapping the line off around one of the ears. A weight of this type eliminates retying the line during a change in water depths.

**L. Snag Weight \$36.95**

A weighted treble hook, or a Snag Weight, is used to retrieve objects from the bottom. Where legal, it is also used to catch fish by snagging. The weight directly on the hook provides good casting characteristics and holds your line in the water. Check local fishing regulations for legality.

**M. Removable**

**Split Shot \$38.95**

This Split Shot has “teeth”, so you can crimp the sinker on your line or pinch the “ears” to remove it. Use pure or soft lead to mold these.

**N. Split Shot \$38.95**

The round Split Shot is one of this country’s most used sinkers because of the ease in which it can be attached to the line.

**O. Bass Casting-Swivel Bell Sinker \$36.95**

Bass Casting or Swivel Bell sinkers feature a molded-in swivel, so you don’t become the frustrated “twisted” fisherman.

**P. No Snag Sinker \$36.95**

Thin and flat, No Snag Sinkers derive their name from their tendency to rise above the bottom and glide over snags when retrieved.

**Q. River Sinker \$36.95**

These large donut-shaped sinkers hold their own against the currents in rivers, tidal flats, coastal areas and surf. The low profile and raised outer edges of the River Sinker prevent the rolling or tumbling that you’d expect under these conditions.

**R. No Roll Sinker \$38.95**

The flat, low profile does not drift with the current, so your line stays in place. A CP332 Core Pin for each cavity is included.

**S. Pinch-On Sinker \$38.95**

Pinch-On Sinkers are very easy to attach and remove from the line. The ears of the sinker are simply folded over the line, which gives this sinker a streamlined shape when attached. It is important to use only soft lead when casting Pinch-On Sinkers.

**T. Bank Sinker \$36.95**

Bank Sinkers are one of the most popular sinker designs and enjoy great popularity with both fresh and saltwater fishermen. Bank Sinkers feature hexagon sides to resist rolling in current and a tapered shape for fewer snags in rocks.

**U. Bell Sinker \$36.95**

Bell Sinkers are teardrop shaped to cast smoothly and resist snags on the retrieve. Designed with a molded eye, these beauties can be produced quickly and inexpensively.

**V. Flat Bank Sinker \$36.95**

The Flat Bank Sinker gives you an edge in thick cover and fast waters. The low profile stays the course when other sinker styles might be pushed or rolled.

**W. Egg-Slip Sinker \$38.95**

The Egg Sinker, or Slip Sinker (as it is sometimes called), has numerous advantages over conventional sinkers. The line will slip through the sinker, thus the fish will not feel the weight of the sinker when it picks up the bait. Setting the hook will be quicker without the sinker’s resistance. In addition, the fish cannot use the sinker’s weight to help throw the hook when breaking water.

**X. Horse Head Jigs \$36.95**

**Y. Pony Head Jigs \$36.95**

The lure's head, with its long and drooping nose, resembles a horse's head, hence the name. And it doesn't hurt that the shape looks like a larva to the fish. The slim shape of the jig's head design minimizes the chance of snags in rocks and brush, yet maximizes the flow of water around the lure to turn the spinner blade.

**Z. Sea Horse Jigs \$36.95**

A larger version of the Horse Head Jig, the Sea Horse uses the strong hooks you need to land Striped Bass and other large game fish. The bent down portion of the head serves as both an attachment point for the spinner blade and a stabilizing rudder to keep the torque of the rotating blade from turning this jig to its side.

**AA. Minnow Head Jig \$36.95**

This slim tapered head and protruding eyes give the Minnow head Jig its special appearance. Ideal for use with small shad bodies and other plastics, the Minnow Head Jig is as productive as it is attractive.

**BB. Bullet Jig \$36.95**

The Bullet Jig is a center balance jig with a tapered head. It smoothly shoots through the water attracting a variety of fish species.

**CC. Shad Dart Jig \$36.95**

A slant-faced, tapered jig that's named for migrating mid-Atlantic shad. The slanted head gives it a rising, "darting" action when the rod tip is raised.

**DD. Larva Jig \$36.95**

Fish love to dine on the harmless developing larva, so this jig is designed to mimic its falling action. The forward position of the hook eye makes the Larva Jig more snag resistant, even when ice fishing. Outfit with feathers or plastic tubular jig skirts to lure crappie and panfish.

**EE. Weedless Ball Jig - Fiberguard \$36.95**

The Weedless Ball Jig is designed to accept fiberguard weed and brush guards. Weedless Ball Jigs enable fishermen to spend more time fishing brush piles and weedbeds instead of freeing snags. Please Note: These models will not accept Y-Guards or base hole pins.

**FF. Canon Ball Sinker \$36.95**

Canon Balls drop faster and straighter than other sinkers. Load your rig with these round sinkers and shoot your lure down to the depths you need.

## Anytime, Anyplace, Any Water

# Crappie!

**Pro-Staff Training DVDS** These spectacular Teaching DVDS (really, they are) utilize tutorials, diagrams, and on-the-water footage to educate the casual fisherman about the newest (and oldest) techniques of catching crappie in any condition. Covering many different techniques, these DVD's are professionally produced and edited by Russ Bailey, host of the popular TV show "Brush Pile Fishing".

Each segment includes diagrams, how to, and (3) tips for each technique, and each segment is conducted with a different Pro-Staffer from B'n'M. They cover a wide variety of products and manufacturers, not just B'n'M. From vertical jigging to pulling summertime crankbaits, these DVDS will help you catch more crappie.

**No. 1:**

### Anytime, Anyplace, Any Water CRAPPIE NO. 1

Our first release broke ground by using tutorials, diagrams, and on-the-water footage to educate the casual fisherman about the newest (and oldest) techniques of catching crappie in any condition. Covering (9) different techniques, this DVD is professionally produced and edited by Russ Bailey, host of the popular TV show "Brush Pile Fishing". Each segment includes diagrams, how to, and (3) tips for each technique and each segment is conducted with a different pro staffer from B'n'M. It covers a wide variety of products and manufacturers, not just B'n'M. From vertical jigging to pulling summertime crankbaits, this DVD will help you catch more crappie.

**No. 2:**

### Anytime, Anyplace, Any Water CRAPPIE NO. 2

Folks said our first DVD was terrific, but "Number Two" has kicked it up a notch for sure. This instructional video series sets a whole new standard for Crappie Fishing, putting you in the seat with the best in the business - the BnM Pro Staff. Go fishing with Russ Bailey, Roger Gant, Kent Driscoll and host of other Pro Staffers as they use tutorials, diagrams, and on-the-water footage to teach you the newest (and oldest) techniques of catching crappie in any condition. "No. 2" covers 10 different techniques that they've mastered to find and catch crappie in any water, in any spot, in any time of year. Filled with great diagrams to illustrate every point, it's just like being in the boat with the best. This DVD reveals all the secrets the Pro's use to win tournaments!
